## Donate2Educate Contest

Redland Elementary was our winner. For their efforts Redland will receive \$500.

The contest successfully generated more projects than ever before. Our awards this month are the most ever given in a single month by the foundation. We hope that now that you've discovered the site and learned how the program works that you will continue to participate by giving.

## Annual Fund Drive

The foundation has effectively used the money raised through the Annual Fund Drive to help purchase SMARTBoards for each of our schools.

The foundation elected to double the money raised to get as many SMARTBoards in our buildings as we can. If you have not seen this technology in action contact your PTSO or see one being demonstrated at our auction.
